This report on local school system statistics in the United States presents data for 140 unified school systems with enrollments of 25,000 or more and for 157 high salary school systems with fewer than 25,000 students. Included are selected statistics on (1) pupils in school, (2) classroom teachers (degrees and turnover), (3) percents of revenue raised locally, (4) property tax rates, (5) major items of expenditure, (6) fiscal dependence or independence, and (7) the results of referendums on school bonds and increases in tax rates. The data are presented in summary form and by school district. (TT)

FOREWORD

The fifth annual report of local school statistics is devoted primarily to the large unified school systems in the school year 1964-65. Included are selected statistics on pupils, classroom teachers, percents of revenue raised locally, property tax rates, major items of expenditure, fiscal dependence or independence, and the results of referendums on school bonds and increases in tax rates. Data are given for 140 of the 148 unified school systems with enrollments of 25,000 or more in October 1964, and for 157 small school systems which provide relatively high-salary schedules for classroom teachers.

Pressures for expanded school services in urban areas are growing more acute each year. In many places the new federal funds are only supplementing imaginative new programs already started. One result of the new activity has been an increasing demand for basic information on costs and related items for the school systems concerned. This series of reports has been undertaken to meet, in part, the urgent demands for comparative statistics.

This study was prepared by Nettie S. Shapiro, Research Associate, under the direction of Jean M. Flanigan, Assistant Director. Compilation of the data was under the supervision of Simeon P. Taylor III, Assistant Director and Chief of the Statistics Section. Louise V. Trumbo, Statistical Clerk, also assisted with the report.

The NEA Research Division is grateful to the superintendents, fiscal officers, research directors, and others associated with the local school systems who cooperated in supplying information for this report. The names of the respondents to the questionnaire are given in the Index to School Systems.

GLEN ROBINSON
Director, Research Division

INTRODUCTION

This report presents the findings of a questionnaire survey of selected statistics of pupils, teachers, revenues, and expenditures of local public school systems for the 1964-65 school year. Questionnaires were mailed by the NEA Research Division in November 1965, requesting certain items of information which correspond closely to the accounting standards of the U. S. Office of Education for pupil, teacher, and financial accounting. The questionnaire provided for the reporting of enrollment in the Head Start program initiated in the summer of 1965 largely with funds from the Office of Economic Opportunity. It also requested separate reporting of expenditures for special federally financed programs. The impact of the special federal programs is light in the school year 1964-65 because it is the first year for programs under the Economic Opportunity Act. Also, because other federal programs did not accelerate or start until after the close of the 1964-65 school year, heavier impact on expenditures is expected during 1965-66 and subsequent years. The questionnaire sent to superintendents is reproduced on page 95.

Many systems were able to supply all the information as requested. However, because a substantial number of respondents noted differences between the information requested and the information supplied, close comparisons of the figures of individual school systems are not recommended. Comparability of some items is limited, also, because of the differences among the systems in the division of responsibility for some school programs between school and nonschool governmental units. There are differences in the states' roles: The states have assumed varying amounts of responsibility for the direct provision for certain school programs, services, and facilities, as well as for support of schools through grants-in-aid. In addition, in some legally independent districts the nonschool local governments (cities, counties, and special districts) sometimes supply services, such as legal, health, and debt management. The cost of services so provided is generally not included in the expenditures reported by school systems; where expenditures made by nonschool governments were included, they have generally been indicated.

The local school statistics also reflect differences in program and service offerings. Certain school programs and services, such as kindergartens and pupil transportation, which are provided in some systems are not provided in others by either school or nonschool public agencies.

Summary data for large unified systems with enrollments of 25,000 or more pupils are presented in Tables 1 through 22 of the text. Detailed data for each of the 140 unified large systems are given in the tables of the Appendix. Similar data are shown for 157 selected unified systems with enrollments under 25,000 pupils. These small systems are among those whose salary schedules met one or more of the criteria for high scheduled salaries of classroom teachers and who returned a completed questionnaire.

Returns were received from 140, or 94.6 percent, of the 148 unified large systems to which the questionnaire was sent. The total enrollment in these 140 responding systems was 96.8 percent of the total enrollment in the 148 large public school systems. For the purpose of this report, these large districts were divided into three strata according to the combined elementary- and secondary-school enrollment, as of October 1964, as follows:

Stratum 1--100,000 or more pupils
Stratum 2--50,000 to 99,999 pupils
Stratum 3--25,000 to 49,999 pupils

The Appendix tables which report the figures for the selected small school systems are numbered to reflect the enrollment strata used in the NEA Research Division studies of local school systems. The tables for systems of 6,000 to 24,999 enrollment include systems from enrollment Strata 4 and 5 (Stratum 4, 12,000-24,999 pupils and Stratum 5, 6,000-11,999 pupils). The tables reporting on systems enrolling from 1,200 to 5,999 pupils include systems from Strata 6 and 7 (Stratum 6, 3,000-5,999 pupils and Stratum 7, 1,200-2,999 pupils). The data for these small systems are discussed in a separate section of the text under "Selected School Systems."

Data on the distribution and return of questionnaires and enrollments in the 140 responding systems as well as in all 148 systems in the first three strata are shown in Table 1. Of the eight systems which did not return the questionnaire, two were in Stratum 2 and six were in Stratum 3. The systems for which data are not available, are listed in the note to Table 1.

TABLE 1.--RETURNS OF SURVEY OF LARGE PUBLIC SCHOOL SYSTEMS, OCTOBER 1964

Enrollment stratum	Total number of school systems[a]	Total enrollment, October 1964	Respondents		Percent of systems responding	Enrollment in responding systems (col. 5) as percent of total enrollment (col. 3)
			Number of systems	Enrollment, October 1964		
1	2	3	4	5	6	7
1--100,000 or more.	24	5,287,070	24	5,287,070	100.0%	100.0%
2-- 50,000-99,999 .	47	3,281,434	45	3,130,350	95.7	95.4
3-- 25,000-49,999 .	77	2,664,888	71	2,460,585	92.2	92.3
Total	148	11,233,392	140	10,878,005	94.6%	96.8%

Note: No returns were received from Tulsa, Oklahoma (2); San Antonio, Texas (2); Richmond County, Georgia (3); Jefferson Parish, Louisiana (3); Syracuse, New York (3); Amarillo, Texas (3); Salt Lake City, Utah (3); and Virginia Beach City, Virginia (3).

[a] Systems which operate only elementary or only secondary grades were omitted.

PUPILS IN SCHOOL

Three series of pupil accounting statistics were reported by the school systems, as follows:

1. October enrollment is the pupil membership of the system as of the day specified, usually October 1 or the report day closest to October 1. It comprises all pupils present and absent who are listed on the school's rolls.

2. Average daily attendance for the school year is the aggregate of daily attendance divided by the number of days school was actually in session. Attendance comprises only the pupils present at school. An exception is noted for the systems in California where daily attendance includes pupils with excused absences.

3. Average daily membership for the school year is the aggregate of daily membership for each school day divided by the number of school days. Daily membership includes all pupils, present and absent, unless officially removed from the school's rolls.

Table 2 shows the October enrollment in elementary and secondary day schools, average daily attendance, and average daily membership reported for 140 large systems which returned a questionnaire. Estimates are also shown for 148 large systems after including estimates for the 8 systems which did not respond. Figures for the individual systems reporting are shown in columns 2, 3, and 4 of Tables A-1, A-2, and A-3 of the Appendix.

In October 1964, the 148 large systems enrolled an estimated total of 11,233,392 pupils. Although the 148 large systems were only 0.6 percent of the 25,740[1] public school systems operating schools in the United States in 1964-65, they enrolled about one-fourth (27.2 percent) of all pupils in public elementary and secondary day schools. For 1964-65, average daily attendance in the 148 districts was estimated at 10,371,210, or 92.3 percent of their estimated fall enrollment. Average daily membership was estimated at a total of 11,088,081 or 98.7 percent of the fall enrollment.

TABLE 2.--PUPILS IN THE ELEMENTARY AND SECONDARY DAY SCHOOLS OF LARGE PUBLIC SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Enrollment, October 1964	Average daily attendance, 1964-65	Average daily membership, 1964-65	Percent average daily attendance is of October enrollment	Percent average daily membership is of October enrollment
1	2	3	4	5	6
1--100,000 or more (24 systems)	5,287,070	4,810,412	5,202,089	91.0%	98.4%
2--50,000-99,999 (45 systems)	3,130,350	2,923,748	3,101,749	93.4	99.1
3--25,000-49,999 (71 systems)	2,460,585	2,309,028	2,433,476	93.8	98.9
Total reported, 140 systems	10,878,005	10,043,188	10,737,314	92.3%	98.7%
Total estimated, 148 systems[a] ...	11,233,392	10,371,210	11,088,081	92.3%	98.7%

[a] Includes estimates for 8 systems not reporting.

TABLE 3.--LENGTH OF THE SCHOOL YEAR IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of days in school year			
	Mean per pupil in average daily membership	Mean of systems	Median of systems	Range of systems
1	2	3	4	5
1--100,000 or more	182.1	181.5	181.8	177-184
2--50,000-99,999	179.4	179.4	180.0	173-186.5
3--25,000-49,999	179.0	179.0	180.0	172-184
Total reporting, 138 systems ...	180.6	179.5	180.0	172-186.5

The five largest school systems enrolled over 2.8 million pupils, as follows: New York City, 1,054,201; Los Angeles, 607,110; Chicago, 544,697; Detroit, 294,727; and Philadelphia, 270,898.

Length of the School Year

The school year for pupils in large school systems averaged 180.6 days. The pupil school year was limited to the days that school was actually in session for pupils. Days that schools were closed for pupils (vacations, holidays, inclement weather, and days on which teachers worked but pupils were not at school) were not included. The average (mean) number of school days per pupil in ADM was highest in the largest school systems, as follows: Stratum 1, 182.1 days; Stratum 2, 179.4 days; and Stratum 3, 179.0 days.

The number of days in the school year are shown by system in column 5 in Tables A of the Appendix. Among individual large systems, the school year ranged from a low of 172 days to a high of 186.5 days. In the course of a pupil's public-school experience (grades 1 through 12), the difference amounts to 174 days--almost the equivalent on the average of an extra school year.

Table 3 summarizes the data on length of the school year by enrollment stratum, and shows the range among the systems reporting.

Enrollment in Other School Programs

In addition to the elementary and secondary day schools, almost all large school systems conducted regular summer schools and a high proportion reported enrollment in adult education classes. Enrollment in summer schools (kindergarten through grade 12) was reported by 131 of the 140 large school systems and in adult education classes by 123 systems.

Enrollment in the regular summer schools in 1965 totaled 1,166,652 pupils, or 10.7 percent of the October 1964 enrollment reported in elementary and secondary day schools of the 140 systems. Enrollment in adult education classes totaled 892,985 pupils as of October 1964.

Of the 140 large school systems, 113 systems reported participation in the new Head Start program started during the summer of 1965. The program serves preschool children (ages 4, 5, and 6) from low-income homes, and operates largely with funds from the Office of Economic Opportunity. The 113 large systems reported a total summer Head Start enrollment of 153,896 pupils, or 27.4 percent of the 561,359 preschoolers reported enrolled throughout the nation.2/

Junior-college programs (grades 13 and 14) were reported by 28 systems with a total enrollment of 222,394 pupils. Almost half of the public community college programs were reported by school systems in California and Florida.

Enrollments in the summer schools, adult education, and in the junior-college programs are summarized in Table 4 and reported by system in columns 6, 7, and 8 of Tables A of the Appendix.

TABLE 4.--ENROLLMENT IN SUMMER SCHOOLS, ADULT EDUCATION, AND JUNIOR COLLEGES OF LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Summer school, 1965		Adult education	Junior college
	Regular	Project Head Start		
1	2	3	4	5
1--100,000 or more .	606,862 (24)	88,297 (23)	451,134 (24)	136,200 (9)
2--50,000-99,999 ..	314,379 (45)	44,147 (40)	238,496 (43)	40,546 (8)
3--25,000-49,999 ..	245,411 (62)	21,452 (50)	203,355 (56)	45,648 (11)
Total reporting programs.	1,166,652 (131)	153,896 (113)	892,985 (123)	222,394 (28)

Note: Figures in parentheses are the numbers of systems reporting enrollments for the programs.

2/ Office of Economic Opportunity. Congressional Presentation. Washington, D. C.: the Office, March 1966. Part I, p. 1.

CLASSROOM TEACHERS

The 148 large unified school systems with enrollments of 25,000 or more employed an estimated total of 422,467 classroom teachers. This was about one-fourth of all public elementary- and secondary-school classroom teachers in the United States in the 1964-65 school year.[1] All persons who gave half-time or more to classroom teaching in kindergarten through grade 12 are included. Principals, supervisors, counselors, librarians, and other instructional personnel are excluded.

When related to the estimated number of pupils in average daily membership shown in Table 2, the pupil-teacher ratio for the 148 systems is estimated at 26.2. For the 24 systems reporting in Stratum 1, the pupil-teacher ratio is 26.6; for the 45 systems in Stratum 2, the ratio is 26.1; and for the 71 reporting systems in Stratum 3, the ratio is 25.6.

TABLE 5.--NUMBER OF CLASSROOM TEACHERS IN LARGE SCHOOL SYSTEMS, 1964-65[a]

Enrollment stratum 1	Reported number of classroom teachers 2	Estimated total number of classroom teachers 3
1--100,000 or more	195,554 (24)	195,554 (24)
2--50,000-99,999	118,616 (45)	123,769 (47)
3--25,000-49,999	95,182 (71)	103,144 (77)
Total	409,352 (140)	422,467 (148)

Note: The figures in parentheses are the numbers of school systems comprising the totals.

a/ Full-time classroom teachers in elementary and secondary day schools, kindergarten through grade 12.

Table 5 shows the number of classroom teachers reported by enrollment stratum. Similar information by school system is shown in column 2 of Tables B of the Appendix.

Degrees

In the large school systems the academic preparation of classroom teachers, as measured by academic degrees, was substantially better than the preparation of all teachers in the United States. For example, teachers without a bachelor's degree comprised but 3.4 percent of the classroom teaching staff of large systems compared with 8.6 percent of all teachers.

The distribution of all public-school teachers by highest degree held is compared below with the distribution of classroom teachers in large school systems.

Preparation	All teachers[a]	Teachers in large school systems
No degree	8.6%	3.4%
Bachelor's degree	67.3	68.0
Master's degree .	24.0[b]	28.2[c]
Doctor's degree .	0.1	0.4

a/ NEA Research Division teacher opinion survey, 1964-65 school year.

b/ Includes those with 6-year professional diploma.

c/ Includes those with master's degree plus 30 hours.

TABLE 6.--DISTRIBUTION OF CLASSROOM TEACHERS IN LARGE SCHOOL SYSTEMS BY HIGHEST LEVEL OF PREPARATION, 1964-65

Enrollment stratum	No degree	Bachelor's degree	Master's degree	Master's degree plus 30 hours	Doctor's degree	Total
1	2	3	4	5	6	7
1--100,000 or more	3.7%	68.4%	19.1%	8.3%	0.5%	100.0% (23)
2--50,000-99,999	3.2	68.0	25.3	3.1	0.4	100.0 (44)
3--25,000-49,999	3.1	67.4	24.9	4.5	0.1	100.0 (71)
Total reporting	3.4%	68.0%	22.6%	5.6%	0.4%	100.0% (138)

Note: The figures in parentheses are the numbers of school systems supplying information.

TABLE 7.--CLASSROOM TEACHER SEPARATIONS IN LARGE SCHOOL SYSTEMS, JULY 1, 1964, TO JUNE 30, 1965, AS PERCENT OF TOTAL NUMBER OF CLASSROOM TEACHERS

Enrollment stratum	Resignations	Separations for other reasons[a]	Total
1	2	3	4
1--100,000 or more.	6.8% (21)	2.7% (21)	9.4% (23)
2--50,000-99,999 .	10.3 (45)	2.4 (45)	12.7 (45)
3--25,000-49,999 .	11.5 (67)	1.9 (67)	13.4 (69)
Total.	9.1% (133)	2.4% (133)	11.4% (137)

Note: Figures in parentheses are the numbers of school systems included in stratum averages. Detail by type of separation was not available for all systems.

[a] Includes deaths, retirements, dismissals, and promotions to school positions other than classroom teaching.

Teacher Turnover

The teacher turnover rate because of all terminations (retirement, resignation, dismissal, or promotion to a position other than teaching in the school system) was 11.4 percent of the total number of classroom teachers for the year. Four-fifths of all teacher separations were due to resignations, with a turnover rate of 9.1 percent because of resignations.

Between July 1, 1964, and June 30, 1965, a total of 44,577 classroom teachers in 137 large school systems left their classroom teaching positions. When the total turnover rate for these systems (11.4 percent) is applied to all 148 large systems, the number of classroom teachers who left their teaching positions is estimated at 48,161 out of a total of 422,467 teachers.

REVENUE

Tables C of the Appendix report the percent of revenue raised locally to finance the direct expenditures of local school systems. Selected statistics of the property tax (total assessed values, values per pupil in average daily membership, the levels of assessments in relation to the market value of property, and the school property tax rates) are also shown. These data are summarized for large local school systems by enrollment stratum in Tables 8 through 12 which follow.

Local Revenue Share

For 1964-65, 140 large school systems raised an average of 58.7 percent of the school revenue for direct expenditures at the local level from local sources. These local sources include tax and nontax revenue receipts, tuition and other patron charges, rent, and interest earnings. State and federal sources supplied the balance of 41.3 percent of the revenue receipts for expenditures at the local level. Table 8 shows by enrollment stratum the mean, median, and range in the percents of revenue raised locally. Column 2 of Tables C of the Appendix shows the local revenue share for individual school systems.

The median local share of revenue of the 140 large school systems was 59.7 percent. A tendency for the local share to be somewhat higher in the large systems of 100,000 or more pupils is indicated in the local shares of the three enrollment strata in Table 8. When Hawaii and the District of Columbia school systems, not comparable with other systems in regard to state-local organization, are omitted from Stratum 1, there is no change in this tendency.

Among the individual systems, there are very wide variations in the percents of revenue raised locally. For the systems reporting, exclusive of Hawaii (31.5 percent) and the District of Columbia (97.6 percent), the local revenue shares varied from a low of 21.2 percent in Albuquerque, New Mexico, to a high of 90.9 percent in Des Moines, Iowa.

Relatively low local revenue shares are noted for most of the large school systems in the Southern states compared with large school systems in other states. The mean of local revenue shares of the 56 large systems in 12 Southern states[1/] was 47.1 percent compared with 66.4 percent for 82 systems in all other states (excluding Hawaii and the District of Columbia).

TABLE 8.--AVERAGE PERCENTS OF REVENUE FROM LOCAL SOURCES IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Mean of systems	Median of systems	Range of systems	
				Low	High
1	2	3	4	5	6
1--100,000 or more	24	63.8%[a/]	65.4%	29.7%[b/]	97.6%[b/]
2--50,000-99,999 .	45	58.6	54.7	21.2	90.7
3--25,000-49,999 .	71	57.1	58.6	22.1	90.9
Total.	140	58.7%	59.7%	21.2%	97.6%[c/]

a/ The mean of Stratum 1 systems, excluding Hawaii and the District of Columbia, is 63.7 percent.

b/ The range, excluding Hawaii and District of Columbia, is from 29.7 percent to 87.8 percent.

c/ The range, excluding Hawaii and the District of Columbia, is from 21.2 percent to 90.9 percent.

The state and federal shares of revenue are not shown because they are not always available separately from most local accounting systems. Federal funds for some programs, including vocational education, are commingled with state funds and are disbursed to the local school systems as state funds.

In addition, because the local school systems can report only revenues available for expenditure by them, the total revenue (the base on

---

1/ Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, Tennessee, Texas, Virginia, and West Virginia.

which the local share is calculated) does not include revenues for the financing of direct expenditures for schools made by other governmental units, i.e., the state, city, county, or other intermediate unit. For example, state revenues to finance the state's contribution to a state-administered teacher retirement system would not be included in the revenue figure reported by the local system unless the state's contribution was actually transferred to the local school system. Hence, the local revenue shares reported here are not comparable with state-wide summaries of local revenue shares.

Assessed Values

The assessed values of taxable real property are summarized in Table 9 and are shown by school system in column 3 of Tables C of the Appendix. The assessed value of taxable real property in the 139 large school systems for which these data were available was $153,336 million, or over two-fifths of the taxable valuation of real property subject to the general property tax for the entire United States.[2]

The variations among school systems in total assessed valuations reflect, in part, real differences in wealth as measured by the value of real property within the district and, also, the local laws and assessment practices in respect to the percent that assessed values are of current market prices of property. The full tax potential may not be utilized because of legal exemptions of property as well as extra-legal omissions of parcels of property or improvements from the assessment rolls.

The school systems were asked to report the total assessed value of taxable property within the school system in 1964. However, the assessed values among the reporting systems may have different base dates, i.e., the period of most recent reassessment. When land values are changing, this time factor is important in accounting for the differences in assessed valuations. These factors limit the use of assessed values as an index of comparative wealth of property within the school districts and as an index of ability or effort to support schools from the local property tax.

The assessed value per pupil in average daily membership in 139 large school systems was $14,468. In systems with enrollments of 100,000 or more, the average assessed value per pupil in ADM was $18,158 as contrasted to an average per pupil value of $11,491 for systems in Stratum 2 (50,000 to 99,999 enrollment) and $10,585 for systems in Stratum 3 (25,000 to 49,999 enrollment). The assessed values per pupil in ADM are summarized by stratum in column 4 of Table 9 and given by system in column 4 of Tables C in the Appendix.

The wide range of assessed values per pupil in ADM is shown in columns 7 and 8 of Table 9. In considering the range of assessed values per pupil among the school systems, it should be noted that the equalized value of property was reported for some systems. For others, the values given include personal as well as real property. These differences in reporting have been noted in the footnotes to Tables C-1, C-2, and C-3 of the Appendix, where such information was available.

TABLE 10.--AVERAGES OF TAX RATES FOR SCHOOLS PER $1,000 OF ASSESSED VALUATIONS IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Mean of systems	Median of systems	Range of systems	
				Low	High
1	2	3	4	5	6
1--100,000 or more.	21	$22.08	$22.30	$ 9.31	$39.85
2--50,000-99,999 .	44	26.51	22.84	12.49	66.03
3--25,000-49,999 .	70	31.09	26.68	4.45	74.50
Total.	135	$28.20	$23.80	$ 4.45	$74.50

Tax Rates

The tax rates on real property per $1,000 of assessed value are given in Table 10 for each enrollment stratum and by system in column 5 of Tables C of the Appendix. In the case of dependent school systems where the school levy is part of the county or municipal levy, the rate shown represents the school's share of the total tax rate as reported by the school system.

The mean school tax rate per $1,000 of assessed value for 135 systems with enrollments of 25,000 or more was $28.20; the median tax rate was $23.80. The mean rate for 21 systems in Stratum 1 was $22.08 (Washington, D.C., and New York City not included); for 44 systems in Stratum 2, the mean school tax rate was $26.51 and for 70 systems in Stratum 3, $31.09. The median school tax rates were $22.30, $22.84, and $26.68 for systems in Strata 1, 2, and 3, respectively. For individual systems, the local school tax rates ranged from a low of $4.45 to a high of $74.50.

The average of assessed values per pupil in ADM was highest in the stratum of the largest systems ($15,515), considerably lower in Stratum 2 ($11,346) and lowest in Stratum 3 $10,966). However, the reverse is true of the mean tax rates, which were $22.08 per $1,000 of assessed value in Stratum 1, $26.51 in Stratum 2, and $31.09 in Stratum 3.

The questionnaire sent to the school systems asked for the school tax rate on real property, or the estimated rate representing the school's share of the total tax rate. (Item 9 of the questionnaire reproduced on page 95.) Variations in the replies are explained in the footnotes where possible. Some systems may have reported the levy for current expenditure only, thus omitting the additional levies for debt service. Where school debt service is the obligation of the county or city government, the additional county or city rate required for school debt service was included when the information was supplied on the completed questionnaire.

Percent of Market Values

The prevailing ratios of assessed values to market values of real property are summarized in Table 11 by enrollment stratum and are shown by school system in column 6 of Tables C of the Appendix.

The mean of the ratios reported for the three enrollment strata indicate that the assessed values of real property were higher in relation to market value for systems with enrollments of 100,000 or more. The mean of the ratio for systems in Stratum 1 was 48.4 percent, for Stratum 2 the mean was 39.4 percent, and for Stratum 3 it was 40.1 percent. The median ratios were 47.5 percent, 40.0 percent, and 35.0 percent for systems in Strata 1, 2, and 3, respectively.

Differences in assessed value per pupil among enrollment strata are reduced somewhat when average assessed values per pupil in ADM are equalized by the average assessment ratios reported for the strata. The figures on page 15 show the mean assessed values per pupil by enrollment stratum and the values per pupil in ADM when these assessed values are equalized by the average assessment ratios reported for the

TABLE 11.--AVERAGES OF PREVAILING RATES OF ASSESSED VALUES TO MARKET VALUES OF REAL PROPERTY IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Mean of systems	Median of systems	Range of systems	
				Low	High
1	2	3	4	5	6
1--100,000 or more ..	22	48.4%	47.5%	23.8%	100.0 %
2--50,000-99,999 ...	45	39.4	40.0	5-10	85.31
3--25,000-49,999 ...	71	40.1	35.0	9.3	100.0
Total ..	138	41.2%	38.0%	5-10%	100.0 %

strata. The indexes show the mean assessed values per pupil for Strata 2 and 3 as percents of the mean for Stratum 1 systems and the corresponding percents for the equalized values per pupil:

Stratum	Valuations per pupil in ADM, mean of systems: Not equalized	Valuations per pupil in ADM, mean of systems: Equalized by ratios reported	Indexes of values per pupil in ADM: Not equalized	Indexes of values per pupil in ADM: Equalized by ratios reported
1	$15,515	$32,056	100.0%	100.0%
2	11,346	28,797	73.1	89.8
3	10,966	27,347	70.7	85.3

The assessment ratios used in computing the equalized indexes of assessed value per pupil in ADM were 48.4 percent for Stratum 1, 39.4 percent for Stratum 2, and 40.1 percent for Stratum 3.

Caution is warranted in the use of assessment ratios, especially for comparisons of individual school districts. The ratios were derived from a wide variation of methodology ranging from the best estimates by some of the responding systems to recent appraisal or sales studies in other school systems.

Estimated Effective Tax Rates

The effective tax rates were derived by multiplying the reported tax rate for a school system by the estimated rate of assessment to market value. The resulting figures represent the rate per $1,000 which would be required to produce the same amount of revenue as the actual rate reported if real property were assessed at full market value. As the figures were calculated from reported tax rates and rates of assessments to market value, the effective tax rates are subject to the errors of both series.

TABLE 12.--ESTIMATED AVERAGES OF EFFECTIVE TAX RATES PER $1,000, ON 100 PERCENT OF MARKET VALUE OF REAL PROPERTY OF LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Mean of systems	Median of systems	Range of systems: Low	Range of systems: High
1	2	3	4	5	6
1--100,000 or more	21	$ 9.71	$ 9.31	$3.21	$14.74
2--50,000-99,999 .	44	9.38	9.26	3.12	26.41
3--25,000-49,999 .	70	10.48	10.27	1.40-2.10	24.67
Total.	135	$10.00	$ 9.65	$1.40-2.10	$26.41

The mean average of effective tax rates is $9.71 for the largest systems, Stratum 1; $9.38 for Stratum 2 systems; and $10.48 for systems in Stratum 3. Among the school systems, the effective tax rates ranged from a low of $1.40-2.10 per $1,000 of market value to a high of $26.41 per $1,000. The range in effective rates among those school systems with enrollments of 25,000 to 49,999 pupils (Stratum 3) was considerably wider than among the larger systems.

As with actual rates, the averages of effective rates for the strata increase as enrollment size decreases, but the spread among the averages is far less when effective tax rates are compared. The estimated effective tax rates are summarized by enrollment strata in Table 12 and are shown by individual systems in column 7 of Tables C of the Appendix.

CURRENT EXPENDITURES

The current expenditure of 140 of the largest school systems for elementary and secondary day schools, as summarized in Table 13, was $4,811 million[1] for the fiscal year 1964-65, or for the nearest fiscal year reported by the school system. Current expenditure for all 148 unified systems enrolling 25,000 or more pupils in elementary and secondary day schools as of October 1964 is estimated at $4,968 million for the 1964-65 school year. Current expenditures, by major categories, are shown for individual systems in Tables D of the Appendix.

Current expenditures include all annual costs of the school system for elementary and secondary day schools during the regular school year except for capital outlay and payments of principal and interest on long-term debt. The accounts shown include administration or general control, instruction, the total of operation and maintenance of school plant, fixed charges, attendance services, health services, transportation services, and "other," which combines the net cost to the school system or deficits in the clearing accounts for student activity funds and food services, and current expenditures not elsewhere reported.

The accounts as reported here follow the manual of school accounting of the U.S. Office of Education.[2] Although the manual is used universally as an accounting guide, many school systems have made substantial modifications of the standard accounts. Some of these are noted on the tables where the differences were cited on the questionnaire return of the school system. No doubt, other differences were not noted by the respondents.

Table 13 summarizes the current expenditures by enrollment stratum and shows the amount and percent spent for each major purpose or account of current expenditure.

School systems with enrollments of 25,000 or more, reporting for the school year 1964-65, spent 74.0 percent of all current expenditures, or $3,559 million, on instruction, that account which includes activities directly related to the teaching of pupils or improving the quality of teaching. This account includes salaries of the instructional personnel and their secretarial and clerical assistants; textbooks, library books, periodicals, and newspapers; audio-visual materials; teaching supplies; and other instructional expenditures.

Administration, consisting of expenditures for the regulation, direction, and control of the system-wide affairs of the school system, comprised 2.3 percent of current expenditures. Included here are the salaries and office expenditures of the central administrative staff of the system and the school board.

Operation and maintenance, as reported here, combine two accounts suggested in the standard accounting manual: operation of school plant and maintenance of school plant. These accounts include repair and replacement of equipment. Operation and maintenance of school plant accounted for 12.7 percent of current expenditures.

Attendance, health, and transportation services and "other" expenses combined comprised 4.0 percent of current expenditures in the large school systems.

Fixed charges, including the school systems' contributions to employee retirement, social security, and pension payments, rental for land and building, interest on short-term loans, and fidelity bond and insurance payments, comprised 7.0 percent of current expenditures.

Per-Pupil Expenditure

Total current expenditure per pupil in average daily membership for 140 large school systems was $448.02. For 24 of the largest systems (Stratum 1) current expenditure per pupil in ADM was $493.85; for the 45 next largest systems (Stratum 2) it was $398.76; and for the 71 systems of lesser enrollment (Stratum 3), $412.85. Table 14 shows cost per pupil for each enrollment stratum and for each major purpose of current expenditure.

---

[1] The total includes a small amount of non-day-school expenditures because a few systems were unable to distribute expenditures among the elementary and secondary day schools, junior colleges, adult education, and the like.

[2] U.S. Department of Health, Education, and Welfare, Office of Education. Financial Accounting for Local and State School Systems. State Educational Records and Reports Series: Handbook II, Bulletin 1957, No. 4. Washington, D.C.: Government Printing Office, 1957. 235 p.

The total current expenditure and expenditure for instruction per pupil in ADM are shown for each school system in columns 4 and 7, respectively, of Tables D in the Appendix. Costs of total current expenditure per pupil in average daily membership ranged from a low of $220.65 for one of the school systems in Stratum 2 to a high of $737.45 for the largest system in Stratum 1.

Expenditures for instruction per pupil in ADM ranged from a low of $177.17 in one system in Stratum 3 to a high of $490.08 for one of the systems in Stratum 1.

Expenditures per pupil are also given in Table 15 for total current expenditures and for instructional expenditures, with averages and the range of the per-pupil costs as reported by the various systems in each stratum.

Comparability with Other Series of Per-Pupil Costs

The base of the expenditures reported here was limited chiefly to the actual or direct disbursements of local school systems. Hence, it does not always include direct expenditures which may be made by other governmental units on behalf of the school systems or selected programs, or for the benefit of pupils or employees of the school system. Where the amounts of such expenditures made in behalf of a school system were reported, they were added to the costs shown for the system and explained in footnotes to the tables in the Appendix. The base of the per-pupil costs which is reported or derived from state summaries of expenditures and pupils published by the U.S. Office of Education and the NEA Research Division[3] include expenditures at all governmental levels on behalf of schools.

The major difference between the costs per pupil reported here and those reported by School Management in "The National Cost of Education Index"[4] is in the base of the per-pupil account. This report bases the number of pupils on average daily membership. The pupil account in School Management's Index is average daily attendance weighted by counting elementary-school pupils as 1.0 and secondary-school pupils as 1.3. The effect is to show lower costs per pupil than would result by using the method followed in this report.

TABLE 13.--CURRENT EXPENDITURES BY MAJOR PURPOSE FOR ELEMENTARY AND SECONDARY DAY SCHOOLS OF LARGE SCHOOL SYSTEMS, 1964-65

Item	Stratum by enrollment

CAPITAL OUTLAY

The per-pupil expenditure for capital outlay in 137 large school systems in the 1964-65 school year was $65.78, an average considerably lower than the estimated nationwide expenditure for the same year which was $79.40 per pupil.[1] Under-reporting or partial reporting of capital outlay by the local systems may account for a large part of the difference. In addition, the local figures reported here omitted some of the capital outlay made on behalf of local schools in some systems by nonschool local and state governments. However, special efforts were made to obtain the figures on capital outlays by nonschool governments and the data are probably more nearly complete than those reported in earlier publications on local school statistics.

The total capital outlay and the outlay per pupil in average daily membership for large systems are shown by stratum in Table 16. Total capital outlay expenditure for individual school systems is shown in column 2 of Tables E in the Appendix.

TABLE 16.--CAPITAL OUTLAY EXPENDITURES IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Total expenditures for capital outlay	Expenditure per pupil in average daily membership
1	2	3	4
1--100,000 or more ...	24	$396,028,162	$76.13
2--50,000-99,999	43	160,732,053	53.62
3--25,000-49,999	70	140,733,189	58.54

---

[1] National Education Association, Research Division. Estimates of School Statistics, 1965-66. Research Report 1965-R17. Washington, D.C.: the Association, December 1965. p. 5.

INTEREST ON LONG-TERM DEBT

Interest on long-term debt for 1964-65, for 126 large school systems reporting, averaged $14.62 per pupil in average daily membership. Some school systems noted on the questionnaire return that interest on school debt was the legal obligation of a nonschool governmental unit rather than the school system. A few other systems were unable to distribute debt service charges between interest and principal payments. Where this distribution was not made, the total amount reported for debt service by the school system was included with debt retirement.

The expenditure of $14.62 per pupil in ADM for interest on long-term debt for large systems reporting this item is far below the nationwide figure of $18.09 for the same fiscal period.[1] In addition to the interest expenditure of the local school systems, the nationwide figures include interest payments on bonds issued by state and all other nonschool governmental agencies for local school purposes.

Interest cost continues to be an important item in school expenditures. In the large systems, expenditures of $14.62 per pupil in ADM for interest on long-term debt exceeded the per-pupil cost of certain major items of current expenditure shown in Table 14. In contrast, the expenditure per pupil in ADM for administration or general control was $10.29 for transportation services, $8.39, and for health and attendance services combined, $6.45.

Total interest expenditure and the interest expenditure per pupil in ADM are shown by enrollment stratum in Table 17, and interest expenditure by individual system is shown in column 3 of Tables E of the Appendix.

TABLE 17.--EXPENDITURES FOR INTEREST ON LONG-TERM DEBT OF LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Total expenditures for interest	Expenditure per pupil in average daily membership
1	2	3	4
1--100,000 or more	21	$ 79,154,227	$16.35
2--50,000-99,999	43	37,393,938	12.54
3--25,000-49,999	62	28,798,456	13.59
Total for systems reporting	126	$145,346,621	$14.62

DEBT RETIREMENT

Expenditures for debt retirement (principal payments on long-term debt outstanding) averaged $33.51 per pupil in average daily membership for 131 large school systems. Interest payments by some systems were included with debt retirement expenditures for systems which were unable to separate interest and principal payments.

TABLE 18.--EXPENDITURES FOR DEBT RETIREMENT IN LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems reporting	Total expenditures for debt retirement	Expenditure per pupil in average daily membership
1	2	3	4
1--100,000 or more	22	$188,171,107	$37.98
2--50,000-99,999 .	44	90,143,489	29.73
3--25,000-49,999 .	65	63,542,315	28.68
Total for systems reporting.	131	$341,856,911	$33.51

Debt retirement expenditures are shown for the individual school systems in column 4 of Tables E in the Appendix and are summarized by enrollment stratum in Table 18. The systems for which data on interest and/or debt retirement have not been included in the summary tables are noted on the tables which list the individual school systems, accompanied by appropriate explanation where available. In most instances, the data were not furnished because the payments for debt service are the obligation of a nonschool governmental unit.

Debt service (including payments for interest and principal combined) for all large systems reporting these items of expenditure averaged $48.13 per pupil in average daily membership during the 1964-65 school year.

OTHER SCHOOL PROGRAMS

Expenditures for programs other than elementary and secondary day schools were reported by 129 of the 140 large public school systems. These expenditures totaled $237.4 million, and included $88.8 million for junior colleges; $54.5 million for adult education; $42.0 million for community recreation, services to private-school pupils, child care, and other community services; $23.6 million for regular summer schools; and $6.4 million for public libraries. For the most part, these figures represent the total expenditures of these programs for the school systems reporting rather than net costs after deducting receipts of patron or tuition charges.

Expenditures for adult education were reported by 113 of the large systems and for regular summer-school programs by 106 systems. Expenditures were also reported separately by some school systems for federal programs under the Manpower Development and Training Act, the Vocational Education Act, the Economic Opportunity Act, and other federal legislation. The impact of the special federal programs is light in the school year 1964-65 because it is the first year for programs under the Economic Opportunity Act. Also, because other federal programs did not accelerate or start until after the close of the 1964-65 school year, heavier impact on expenditures is expected during 1965-66 and subsequent years. The expenditures for special programs reported for the 1964-65 school year have been noted in Tables E of Appendix A for the individual systems.

Expenditure data for various supplemental programs by enrollment stratum are given in the summaries in Table 19. Expenditures for the programs by system are shown in columns 5 through 12 of Tables E in the Appendix. It should be noted, however, that expenditure data for these related supplemental programs are incomplete for several reasons. Some school systems included the cost of these programs in the various categories of current expenditure for elementary and secondary day schools. Other school systems did not report the expenditures of these programs because they were financed by patron or tuition charges at no expense to the school system. Others reported only salary costs, disregarding costs of providing school plant facilities. Such omissions have been indicated in the footnotes to the tables wherever possible.

TABLE 19.--EXPENDITURES FOR PROGRAMS OTHER THAN ELEMENTARY AND SECONDARY DAY SCHOOLS, LARGE SCHOOL SYSTEMS, 1964-65

Program	Stratum by enrollment			
	1--100,000 or more	2--50,000-99,999	3--25,000 49,999	Total
1	2	3	4	5
Summer schools[a/]	$ 14,243,253 (19)	$ 5,029,724 (39)	$ 4,376,857 (48)	$ 23,649,834 (106)
Adult education	27,982,197 (20)	15,668,432 (40)	10,878,074 (53)	54,528,703 (113)
Junior colleges	50,076,009 (8)	23,402,704 (9)	15,297,107 (10)	88,775,820 (27)
Public libraries	3,589,747 (3)	155,722 (2)	2,680,520 (9)	6,425,989 (14)
Services to private-school pupils	614,020 (3)	205,280 (3)	314,290 (5)	1,133,590 (11)
Other community services	28,946,634 (15)	8,473,703 (23)	3,406,918 (25)	40,827,255 (63)
Other[a/]	14,745,734 (11)	4,458,464 (21)	2,809,228 (20)	22,013,426 (52)
Total	$140,197,594 (23)	$57,394,029 (43)	$39,762,994 (63)	$237,354,617 (129)

Note: Figures in parentheses are the numbers of systems reporting expenditures for the program.

a/ Expenditures for summer Head Start Program where reported have generally been included with "Other" programs.

SUMMARY OF EXPENDITURES

The grand total of all outlays reported by 140 public school systems enrolling 25,000 or more pupils in October 1964 was $6.2 billion. This total comprises current expenditures for elementary and secondary day schools ($4.8 billion), capital outlay ($697 million), interest on long-term debt ($145 million), payments for debt retirement ($342 million) and expenditures for other than regular day school programs ($237 million). The grand total includes duplicative amounts to the extent that capital outlays financed by long-term bonds are counted twice as expenditures--when the payments are made for the purchase or construction of the capital asset and again in another fiscal period when payments are made to retire the bonds.

Current expenditures for elementary and secondary day schools, expenditure for capital outlay, and interest totaled $5.7 billion. The total expenditures are summarized by enrollment stratum in Table 20.

TABLE 20.--SUMMARY OF EXPENDITURES IN 140 LARGE SCHOOL SYSTEMS, 1964-65

Expenditures	Stratum, by enrollment			Total
	1--100,000 or more	2--50,000-99,999	3-25,000-49,999	
1	2	3	4	5
Current expenditures for elementary and secondary day schools	$2,569,049,989	$1,236,865,331	$1,004,680,171	$4,810,595,491
Current expenditures, capital outlay, and interest	3,044,232,378	1,434,991,322	1,174,126,816	5,653,350,516
Current expenditures, capital outlay, interest, and non-day-school programs	3,184,429,972	1,492,385,351	1,213,889,810	5,890,705,133
Current expenditures, capital outlay, interest, non-day-school programs, and debt retirement	3,372,601,079	1,582,528,840	1,277,517,125	6,232,647,044

SCHOOL TAX RATE AND BOND REFERENDUMS

Of 140 large systems, 33 reported they had held referendums on school bonds during the 1964-65 school year, 93 had not held referendums, and 14 systems indicated that referendums on the issuance of school bonds were not applicable for their systems.

Of the 33 systems which reported holding a bond referendum, 31 indicated that the bond issues were approved by voters and two indicated disapprovals. The two school districts in which bond referendums were disapproved were in Stratum 3.

The school systems were also asked to report on referendums which may have been held on an increase in school tax rates. Only 28 systems reported holding such referendums during the 1964-65 school year. Of these, 23 received voter approval and 5, disapproval. Among other 112 large systems, 82 reported that referendums on tax rates were not held during 1964-65, and the remaining 30 systems indicated that such referendums did not apply.

The reporting by enrollment stratum on school bond referendums and on proposed increases in tax rates are summarized in Table 21. The results of the referendums for individual school systems are shown in Tables F of Appendix A.

TABLE 21.--SUMMARY OF REFERENDUMS ON SCHOOL BONDS AND ON INCREASE IN SCHOOL TAX RATES, BY NUMBER OF LARGE SCHOOL SYSTEMS, 1964-65

Enrollment stratum	Number of systems	School bond referendums				Referendums on increase in school tax rate			Not applicable
		Held		Not held	Not applicable	Held		Not held

FISCAL INDEPENDENCE OR DEPENDENCE

Of the 140 largest school systems, 94 reported complete fiscal independence for all school purposes, including levying taxes to raise revenues for operation, capital outlay, and interest expenditures. Six systems were fiscally independent for purposes of operation and maintenance but were fiscally dependent for capital outlay and/or interest and debt retirement expenditures. The remaining 40 systems had no authority to levy or collect taxes for school revenues and were entirely fiscally dependent on a local governmental unit.

Summary information on the status of the fiscal independence or dependence of the large school systems is shown in Table 22. Data by individual systems are given in Tables F of the Appendix.[1]

TABLE 22.--SUMMARY OF LARGE SCHOOL SYSTEMS BY FISCAL INDEPENDENCE OR DEPENDENCE, 1964-65

Enrollment stratum	Total number of school systems reporting	Fiscally independent: For all school purposes	Fiscally independent: Except for capital outlay and interest	Fiscally dependent
1	2	3	4	5
1--100,000 or more	24	13	2	9
2--50,000-99,999	45	33	1	11
3--25,000-49,999	71	48	3	20
Total	140	94	6	40

[1] For financial statistics for independent school districts enrolling 3,000 or more pupils, by individual school district, see: U.S. Department of Commerce, Bureau of the Census. Finances of School Districts, Census of Governments, 1962. Governmental Finances, Vol. IV, No. 1. Washington, D.C.: the Bureau, December 1963. 58 p.

SELECTED SCHOOL SYSTEMS

About 200 small systems with enrollments of fewer than 25,000 pupils were selected for inclusion in the survey on local school statistics because their salary schedules had met one or more of the three criteria used in determining high-level salaries. This selection was based on a study of the salary schedules of more than 2,000 school districts with enrollments of 3,000 or more pupils and of a highly selected group of suburban districts with enrollments under 3,000 pupils.[1] In all, 157 of the small school systems responded to the questionnaire on pupils, teachers, and finances for the 1964-65 school year.

The data reported for the small systems are indicative of educational expenditures in relatively high-salary, high-income areas. They show some interesting contrasts to those of systems with large enrollments, located mainly in large urban centers.

The small systems have been divided into two groups: those with enrollments from 6,000 to 24,999 pupils and those with enrollments of 1,200 to 5,999. The data for these systems are given in the Appendix following each set of the regular tables on the first three strata. They are numbered to reflect the enrollment strata used in all Research Division studies of local school systems. The tables designated as A-4,5 through F-4,5 with systems of 6,000 to 24,999 pupils cover two enrollment strata, as follows:

Stratum 4--12,000-24,999 pupils
Stratum 5--6,000-11,999 pupils

The tables designated as A-6,7 through F-6,7, with systems of 1,200 to 5,999 pupils cover the following two enrollment strata:

Stratum 6--3,000-5,999 pupils
Stratum 7--1,200-2,999 pupils

Summary comparisons by enrollment size of school system indicate that teachers employed in the selected small systems have higher levels of preparation than those in systems with 25,000 or more pupils. The percents of classroom teachers with master's degrees or better are given below from the summary data:

Enrollment size of school systems	Master's degree or better
100,000 or more pupils	27.9%
50,000-99,999	28.8
25,000-49,999	29.5
6,000-24,999	42.0
1,200-5,999	42.7

Enrollment in the regular summer-school programs in the summer of 1965 was somewhat higher in the small selected systems when related to the average daily membership for the 1964-65 school year. The ratio of summer-school enrollment to average daily membership is shown below:

Enrollment size of school systems	Enrollment in summer school as percent of ADM
100,000 or more pupils	11.7%
50,000-99,999	10.1
25,000-49,999	10.1
6,000-24,999	14.7
1,200-5,999	12.3

Relatively low enrollments were reported in the summer Head Start program by the small selected systems. This can be attributed to the fact that the program is designed for preschool children from low-income homes. Of the 157 systems, 43 systems (27.4 percent) reported enrollment in summer Head Start. Among the large systems in the first three strata, 80.7 percent of the systems had pupils enrolled in this program in the summer of 1965. The total number of pupils enrolled in the 43 small systems was close to 5,000, but one system in California accounted for about one-third of the enrollment.

The assessed valuations per pupil did not show as sharp a contrast in the means of systems by enrollment size as in the range for individual systems. The mean assessed value per pupil was highest for the very small systems (from 1,200 to 5,999 pupils) and for the largest systems (100,000 or more pupils). The reported ratios of assessed value to market value for the means of systems averaged from 35.4 percent in school districts with enrollments of 6,000 to 24,999 pupils to 48.4 percent for the largest school systems as shown below:

---

[1] For additional information on the selection of systems, see: National Education Association, Research Division. Some of the Highest Scheduled Salaries for 1964-65. Urban Research Series. Washington, D.C.: the Association, September 1964. 10 p.

Enrollment size of school systems	Assessed value per pupil[a/]	Assessment ratio
100,000 or more pupils ...	$15,515	48.4%
50,000-99,999	11,346	39.4
25,000-49,999	10,966	40.1
6,000-24,999	12,938	35.4
1,200-5,999	15,298	39.4

---

a/ Mean of systems.

The current expenditure per pupil averaged considerably higher in the selected systems with small enrollments than in the large school systems. The average per-pupil cost for the mean of systems by enrollment size of school system for total current expenditure and for cost of instruction only are given below:

Enrollment size of school systems	Per-pupil expenditure[a/] Total current expenditure	Per-pupil expenditure[a/] Cost of instruction
100,000 or more pupils.	$430.61	$317.95
50,000-99,999	393.15	302.57
25,000-49,999	414.68	319.32
6,000-24,999	612.94	447.10
1,200-5,999	745.03	510.33

---

---

[a] Where the days in session differ by organizational level, they are reported in sequence; i.e., elementary, junior high, and senior high, or elementary and senior high schools, respectively. Excludes holidays, vacations, and days that teachers worked but pupils did not attend school.

[b] Includes pupils enrolled in regular, remedial, and enrichment programs in elementary and secondary grades.

[c] Includes pupils of preschool age enrolled in the Project Head Start program operated by the school system.

[d] Operated by a separate junior-college district under the board of education.

[e] Includes 6,843 pupils in regular school programs, 1,012 in adult education, 399 in Manpower Development and Retraining, and 519 miscellaneous enrollments.

[f] Estimated.

[g] Includes 25,377 adults enrolled in standard evening school, 6,611 in basic education, 11,916 in Americanization school, and 9,273 in vocational evening program.

[h] Includes 439 adults in elementary classes and 1,456 in secondary grades. In addition, 671 adults were enrolled in short unit distributive education.

[i] In addition, there was an enrollment of 4,003 pupils in remedial enrichment (3,423 non-fee and 580 on tuition basis).

[j] Represents head count; subject registrations totaled 15,427.

[k] Enrollment in 12th grade was for less than 183 days.

[l] Includes apprentices and practical nurses computed to a full-time basis of 20 hours a week.

[m] Represents individual count; course registration totaled 16,865.

[n] Includes 3,171 adults in evening classes and 948 adults in day school (apprentice programs, practical nursing, and high-school tutorial).

[o] Technical schools (grades 13 and 14).

[p] Includes standard evening high school, 4,401; extension classes, 31,491; English and citizenship, 1,292; discussion groups, 1,008; penal institutions, 182; and recreation, 2,837.

[q] Includes 5,128 adults in credit courses and 9,172 in non-credit courses.

[r] Mean of pupils in average daily membership, 182.1 days; mean of systems, 181.5 days; median of systems, 181.8 days.

---

a/ Where the days in session differ by organizational level, they are reported in sequence; i.e., elementary, junior high, and senior high, or elementary and senior high schools, respectively. Excludes holidays, vacations, and days that teachers worked but pupils did not attend school.

b/ Includes pupils enrolled in regular, remedial, and enrichment programs in elementary and secondary grades.

c/ Includes pupils of preschool age enrolled in the Project Head Start program operated by the school system.

d/ Includes 194 elementary-school pupils and 3,617 secondary-school pupils in first term summer school.

e/ Includes 1,408 adults in trade classes, 174 adults in enrichment courses, and 316 enrolled in elementary and secondary grades.

f/ Includes evening high-school and junior-college classes for adults.

g/ Includes 3,397 adults in general education and 4,739 in vocational, distributive, and industrial education classes.

h/ Includes 4,627 adults in academic classes and 2,932 in vocational.

i/ Includes 11th and 12th month program enrollment.

j/ Estimated.

k/ Includes 1,192 in regular summer-school classes and 22,040 in summer enrichment program.

l/ Includes 1,495 adults in short-term civil defense program.

m/ Includes 702 pupils enrolled in evening classes.

n/ Includes summer high school, reading, TV, history, and enrichment classes.

o/ Represents total enrollment for 1964-65 school year.

p/ Includes 6,210 adults in vocational classes.

q/ Includes 1,258 in vocational classes, 211 in MDTA, and 1,527 in non-vocational programs.

r/ Includes 1,561 adults in accredited evening high school, 1,091 in Newark School of Fine Arts, and 762 in Americanization classes. Excludes 3 adult schools offering courses in cooperation with the Newark Board of Education in buildings provided and maintained by the Board of Education which also appoints the administrators and pay their salaries.

s/ Includes 2,645 adults in evening high school as of June 1965 and 8,843 registered in adult education classes.

t/ Includes 1,176 adults enrolled in non-vocational programs including evening high school, 758 in vocational programs, and 212 in basic education financed by the Office of Economic Opportunity.

u/ Includes 2,571 adults in pre-high school and high school; the other 7,748 adults are enrolled in a variety of vocational, commercial, and other training programs.

TABLE A-2.--STATISTICS OF PUPILS IN 45 SCHOOL SYSTEMS WITH ENROLLMENTS OF 50,000 TO 99,999, 1964-65 (Continued)

v/ Includes 2,785 adults enrolled in community services, 1,362 in vocational and technical programs, 100 in MDTA, and 149 in civil defense.

w/ Includes a full-time equivalency of 464 pupils based on a part-time enrollment of 4,635 pupils.

x/ Includes 560 adults enrolled in trade and industrial education, 341 in home economics, and 278 in other vocational and miscellaneous programs.

y/ Based on 1963-64 school year.

z/ An additional 628 pupils were enrolled in driver education.

aa/ Summer kindergarten only.

ab/ Includes 535 adults in business courses, 240 in home economics, and 287 in various vocational programs.

ac/ Includes 3,231 pupils in music, driver education, and special education.

ad/ Includes 2,865 adults in day programs and 2,283 in full-time equivalency enrolled in evening classes.

ae/ Includes 3,261 adults in evening classes, 794 in basic education, and 468 adults in various training programs.

af/ Includes estimates for 5 systems not reporting average daily membership.

ag/ Mean of pupils in average daily membership, 179.4 days; mean of systems, 179.4 days; median of systems, 180.0 days.

b/ Includes pupils enrolled in regular, remedial, and enrichment programs in elementary and secondary grades.

c/ Includes pupils of preschool age enrolled in the Project Head Start program operated by the school system.

d/ The summer-school program is carried on by a private corporation, whose board of directors is made up of school people, using facilities rented from the school district.

e/ Estimated.

f/ Includes 1,029 adults in vocational classes.

g/ Kindergarten school year reported as 181 days and grades 1 to 12 as 183 or 184 days.

h/ Includes 1,664 pupils in general education and 1,567 in various vocational programs.

i/ Includes 1,267 adults enrolled for regular high-school credit and 3,610 in occupational preparation.

j/ Includes enrollment in academic, business, general education, homemaking, and various vocational courses.

k/ Includes 631 adults in evening high school, 510 in trade and technical, 234 in home economics, and 45 in citizenship courses.

l/ Includes 8,784 adults in general education, 2,293 in vocational reimbursed classes, 1,530 in discussion groups, and 400 in TV class.

m/ Operated by Louisiana Education Association.

n/ Includes 1,721 adults in high-school credit courses, 3,710 in noncredit, and 5,015 in evening adult trade courses.

o/ In addition, 9,340 pupils were enrolled in youth enrichment classes and 20,561 persons attended demonstrations given to meetings and groups.

p/ Represents full-time equivalent.

q/ Includes 496 adults in vocational classes and 490 in apprentice classes.

r/ Includes 2,713 adults in business and distributive classes, 6,302 in vocational classes, and 7,868 attending adult community center.

s/ Includes 1,391 adults in high school, 1,198 in general and basic education, 5,686 in homemaking, and 2,889 in various vocational and manpower programs.

t/ Includes 840 in accredited evening high school, 221 in commercial classes, 303 in Americanization classes, and 278 in various vocational training.

u/ Includes 5,174 adults in elementary and secondary classes, 2,455 in citizenship education, 1,559 in vocational classes, and 1,320 in other courses.

v/ In addition, 2,600 pupils were enrolled in summer driver education and 3,931 pupils participated in summer elementary library program.

w/ Includes 1,259 adults in home economics classes, 1,070 in trade and technical classes, and 648 in various vocational training activities.

x/ Includes 638 adults in academic courses, 394 in commercial, and 216 in various vocational and technical training activities.

y/ Includes 2,257 adults in general education, 1,590 in business education, 130 in driver education, 379 in home economics, and 231 in trade and other vocational training courses; total enrollment in classes, 4,587.

z/ Includes 2,438 adults in general education, 665 in business education, 3,850 in vocational, and 3,185 in other vocational training activities.

aa/ Adult education included in community college program.

ab/ Includes 315 adults in night high school, 400 in nonvocational, and 240 in vocational classes.

ac/ Includes 2,065 students in day school and an estimated 1,100 students in evening junior college. In addition, an estimated 700 students were enrolled in summer junior-college classes.

ad/ Based on the number of days reported for the 1963-64 school year.

ae/ Total includes estimate for 14 systems not reporting average daily membership.

af/ Mean of pupils in average daily membership, 179.0 days; mean of systems, 179.0 days; median of systems, 180.0 days.

---

a/ Where the days in session differ by organizational level, they are reported in sequence; i.e., elementary, junior high, and senior high, or elementary and senior high schools, respectively. Excludes holidays, vacations, and days that teachers worked but pupils did not attend school.

b/ Includes pupils enrolled in regular, remedial, and enrichment programs in elementary and secondary grades.

c/ Includes pupils of preschool age enrolled in the Project Head Start program operated by the school system.

d/ Estimated.

e/ Driver education only.

f/ Excludes 285 pupils enrolled in technical high school.

g/ Includes 830 driver training students.

h/ An additional 239 students were enrolled in school band.

i/ Enrollment in fall term; approximately 3,300 different adults enrolled during year.

j/ Includes 152 pupils enrolled in elementary summer school funded under the Economic Opportunity Act.

k/ As of October 1965.

l/ Includes estimates for systems not reporting average daily attendance or average daily membership.

m/ Mean of pupils in average daily membership, 179.0 days; mean of systems, 179.3 days; median of systems, 179.3 days.

---

a/ Where the days in session differ by organizational level, they are reported in sequence; i.e., elementary, junior high, and senior high, or elementary and senior high schools, respectively. Excludes holidays, vacations, and days that teachers worked but pupils did not attend school.

b/ Includes pupils enrolled in regular, remedial, and enrichment programs in elementary and secondary grades.

c/ Includes pupils of preschool age enrolled in the Project Head Start program operated by the school system.

d/ NEA Research Division estimate.

e/ Kindergarten through grade 6, 178 days; afternoon kindergarten, 182 days; grades 7 and 8, 178 days; grades 9 through 12, 176 days.

f/ Kindergarten reported as 187 days.

g/ Estimated.

h/ Enrollment in special reading classes.

i/ Program started in September 1965 with 501 adults enrolled.

j/ Enrollment of 1,566 adults in Penn State University Extension and 1,351 in classes sponsored by Lions Club.

k/ Includes estimates for systems not reporting average daily attendance or average daily membership.

l/ Mean of pupils in average daily attendance, 180.3 days; mean of systems, 180.5 days; and median of systems, 181.0 days.

TABLE B-1.--STATISTICS OF TEACHERS IN 24 SCHOOL SYSTEMS WITH ENROLLMENTS OF 100,000 OR MORE, 1964-65

School system	Number of full-time classroom teachers[a]	Distribution of teachers by level of preparation						Teacher turnover by cause, July 1, 1964, to June 30, 1965			Total turnover as a percent of total number of teachers

---

[a] Includes those who gave one-half time or more to classroom teaching. Excludes principals, supervisors, counselors, librarians, etc.

[b] Includes teachers on leaves of absence.

[c] Includes teachers with bachelor's degree or equivalent.

[d] Includes teachers with master's degree or equivalent.

[e] Less than 1/10 of 1 percent.

[f] Includes 1.3 percent with master's degree equivalent.

[g] From September 1, 1964, to August 31, 1965.

[h] Includes 6,939 positions which are filled by permanent substitute and permanent per-diem substitute teachers.

[i] Excludes turnover in positions filled by permanent substitute teachers; also excludes all promotions. Positions filled by substitute teachers are excluded in computing turnover rate.

[j] Master's degree plus 30 hours included with master's degree.

[k] Reporting is incomplete as several systems included these teachers with those with master's degrees.

[l] Turnover rates are based on systems reporting in each category. Positions filled in New York City by permanent substitute teachers are excluded in computing turnover rates.

[a] Includes those who gave one-half time or more to classroom teaching. Excludes principals, supervisors, counselors, librarians, etc.

[b] Estimated.

[c] Master's degree plus 30 hours included with master's degree.

[d] Reported as 6.6 percent with master's degree plus 45 hours and 2.1 percent as master's degree with 90 hours.

[e] Data given are for all personnel on classroom teachers' salary schedule.

[f] From September 1, 1964, to August 31, 1965.

[g] Includes 9.8 percent with 36 graduate hours equivalency but no master's degree.

[h] Includes 565 positions filled by long-term substitutes. The levels of preparation includes substitute teachers. Excluding substitutes, the levels of preparation are 0.4 percent with no degree, 51.6 percent with bachelor's degree, 25.5 percent with master's degree, and 22.5 percent with master's plus 30 hours.

[i] Excludes turnover in positions filled by long-term substitute teachers.

[j] As of June 1965.

[k] Includes 27.7 percent with bachelor's degree plus 30 hours and 6.4 percent with bachelor's plus 60 hours.

[l] Full-time equivalent.

[m] Includes 1.9 percent with master's degree plus 60 hours.

[n] Less than 1/10 of 1 percent.

[o] Reporting is incomplete as several systems include these teachers with those with master's degrees.

[p] Positions filled in Newark, N.J., by long-term substitute teachers are excluded in computing turnover rates.

---

a/ Includes those who gave one-half time or more to classroom teaching. Excludes principals, supervisors, counselors, librarians, etc.

b/ Estimated.

c/ Teachers with training beyond a master's degree included with master's degree.

d/ Master's degree plus 30 hours included with master's degree.

e/ Includes bachelor's degree plus 30 hours and bachelor's plus 59 hours including master's degree.

f/ Includes bachelor's degree plus 35 hours, bachelor's plus 50 hours, and master's degree plus 15 hours.

g/ Includes bachelor's degree plus 65 hours including master's degree.

h/ As of January 1965.

i/ Less than 1/10 of 1 percent.

j/ Distribution by level of preparation includes principals.

k/ Includes 6.1 percent with master's degree equivalence.

l/ From September 1, 1964, to August 31, 1965.

m/ Reporting is incomplete as several systems include these teachers with those with master's degrees.

n/ Turnover rates are based on systems reporting in each category.

---

a/ Includes those who gave one-half time or more to classroom teaching. Excludes principals, supervisors, counselors, librarians, etc.

b/ Less than 1/10 of 1 percent.

c/ As of October 1964.

d/ Estimated.

e/ Includes bachelor's degree plus 48 hours, master's degree plus 24 hours, and bachelor's plus 72 hours.

f/ Includes bachelor's degree plus 72 hours.

g/ Includes bachelor's degree plus 30 hours, and plus 60 hours, respectively.

h/ Excludes technical high school and junior college.

i/ Includes 6 years or master's degree plus 50 hours.

j/ Master's degree plus 30 hours included with master's degree.

k/ Includes bachelor's degree plus 30 hours.

l/ Includes bachelor's degree plus 15, 30, 45, and 60 hours, respectively.

m/ Includes master's degree plus 15 hours.

n/ Bachelor's degree includes teachers with 4 years or less preparation, and bachelor's degree plus 6, 30, and 60 hours, respectively.

o/ Includes master's degree plus 45 hours.

p/ Reporting may be incomplete as some systems may have reported these teachers with those with master's degrees.

TABLE B-6, 7.--STATISTICS OF TEACHERS IN 77 SELECTED SCHOOL SYSTEMS WITH ENROLLMENTS OF 1,200 TO 5,999, 1964-65
(Selection based on specified high-salary criteria)

School system	Number of full-time classroom teachers[a]	Distribution of teachers by level of preparation						Teacher turnover by cause, July 1, 1964, to June 30, 1965			Total turnover as a percent of total number of teachers
		No degree	Bachelor's degree	Master's degree	Master's plus 30 hours	Doctor's degree	Total	Resignations	Others--e.g., deaths, retirements, dismissals, and promotions to school positions other than teaching	Total

Number of systems reporting	24	23	23	21	22	21

[a/] Taxable real property within the school system.

[b/] For systems that do not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

[c/] Computed by NEA Research Division (column 5 x column 6).

[d/] Data shown are applicable to Los Angeles Unified School District which includes elementary and secondary schools only. A separate tax rate applies to the Los Angeles City Junior College District.

[e/] Includes a tax rate of $5.796 per $1,000 of assessed value levied by Los Angeles County for capital outlay and debt service.

[f/] San Diego County, 1963-64.

[g/] Most of federal payment is considered as payment in lieu of taxes and entered as a local revenue receipt.

[h/] Estimated.

[i/] Includes a tax rate of $3.50 per $1,000 of assessed value levied by nonschool government for capital outlay and/or debt service expenditures.

[j/] School funds are appropriated from state and county general funds; school system is state-administered.

[k/] Tax rate for New York City for all purposes is $45.34 per $1,000 of assessed value.

[l/] Based on calendar year 1965 revenue receipts.

[m/] Includes $16.00 per $1,000 of assessed value authorized by state legislature and an additional $2.00 per $1,000 levied by City Council for school purposes.

[n/] The assessed value for Shelby County, Tennessee, is $1,342,630,652.

[o/] City of Memphis received 75 percent.

---

[a] Taxable real property within the school system.

[b] For systems that do not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

[c] Computed by NEA Research Division (column 5 x column 6).

[d] Includes real and personal property.

[e] Includes a county-wide tax of $4.50 per $1,000 of assessed value; the proceeds are distributed to 6 school systems on the basis of average daily attendance.

[f] Estimated.

[g] Rate reported for 1963-64.

[h] Assessed value shown is net after personal and homestead exemptions. The gross value reported [illegible],662,414,638.

[i] Includes tax rate of $11.36 per $1,000 of assessed value for operation and $3.58 per $1,000 of assessed value for debt service.

[j] Assessed value is for 1964 tax year and represents value on which taxes were collected in 1965.

[k] Includes a $4.00 tax rate per $1,000 of assessed value levied on a county-wide basis which is distributed to school districts on an average daily attendance basis.

[l] Based on city appropriation for operation of schools related to taxes collected on real estate and personal property.

[m] Tax rates on $1,000 of assessed value are: $6.075 on Class I property, $12.15 on Class II property (includes owner-occupied homes and farms), $24.30 for Classes III and IV. Effective tax rates are $3.037 (Class I), $6.075 (Class II), and $12.15 (Classes III and IV).

TABLE C-3.--REVENUES FROM LOCAL SOURCES, ASSESSED VALUES, AND TAX RATES OF 71 SCHOOL SYSTEMS WITH ENROLLMENTS OF 25,000 TO 49,999, 1964-65 (Continued)

a/ Taxable real property within the school system.

b/ For systems that do not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

c/ Computed by NEA Research Division (column 5 x column 6).

d/ Includes a tax rate of $9.50 per $1,000 of assessed value levied by nonschool government for capital outlay and/or debt service.

e/ Estimated.

f/ The tax rate for the school system is set by the Los Angeles County Board of Supervisors.

g/ Combined tax rate of $34.84 per $1,000 of assessed value in District No. 11 and a rate of $11.60 for El Paso County.

h/ Includes tax levy of $12.65 per $1,000 of assessed value for County Public School Fund.

i/ Combined rate of $20.00 per $1,000 of assessed value for current expenditures and a rate of $1.30 for district-wide debt.

j/ Includes $40,932,451 in assessed value subject to homestead exemption. The net digest is $167,691,379.

k/ A tax rate of $26.50 per $1,000 of assessed value applies to the net digest; an additional $5.50 is applied to the gross assessed value.

l/ Tax rates reported apply to equalized value of property in the amount of $780,987,392.

m/ Equalized value.

n/ Includes a tax rate of $1.414 per $1,000 of assessed value for debt service.

o/ Includes real and tangible property.

p/ Includes property value in the city of Chattanooga in the amount of $261,517,618.

q/ Revenue for schools is appropriated from city and county tax receipts.

r/ Includes property value in the city of Memphis in the amount of $1,195,394,664.

s/ Includes a tax rate of $0.41 per $1,000 of assessed value levied for capital outlay.

t/ Reported for 1963-64.

u/ Assessed values for the cities of Chattanooga, Tennessee, in Hamilton County and Memphis, Tennessee, in Shelby County have been excluded from the total in column 3.

---

[a] Taxable real property within the school system.

[b] For systems that do not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

[c] Computed by NEA Research Division (column 5 x column 6).

[d] Combined tax rate for elementary and secondary school districts.

[e] Estimated.

[f] Includes tax rate of $33.26 per $1,000 of assessed value for general operation and $7.43 per $1,000 for bond interest and debt retirement.

[g] Represents tax rate for 1963.

[h] Excludes tax rate of $1.80 per $1,000 of assessed value for public library. The school district is the fiscal agent for the public library and raises the required tax levy of the Board of Library Trustees.

[i] Estimated by NEA Research Division from prior year's report.

[j] Assessed value reported for 1965.

[k] Tax rates for 4 towns reported as $29.74, $38.75, $39.96, and $42.61 per $1,000 of assessed value, respectively.

[l] Assessment ratios for 4 towns reported as 30, 31, 33, and 43 percent.

[m] Effective tax rates per $1,000 of assessed value for 4 towns are $12.39, $12.78, $12.79, and $12.79.

[n] Includes library tax of $3.26 per $1,000 of assessed value.

[o] Estimated by NEA Research Division.

[p] Range for 7 towns.

[q] Reported as estimated effective tax rate by school district.

---

a/ Taxable real property within the school system.

b/ For systems that do not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

c/ Computed by NEA Research Division (column 5 x column 6).

d/ Applicable to equalized value.

e/ Estimated.

f/ Tax rate given applies to nonagricultural property; the tax rate on agricultural property is $162.04 per $1,000 of assessed value.

g/ NEA Research Division estimate based on 1963-64 report.

h/ The assessment ratios reported were as follows: 19 percent for Guilderland and New Scotland, 24 percent for Knox, and 25 percent for Bethlehem.

i/ The tax rates per $1,000 of assessed value are as follows: $92.11, Babylon #16; $92.55, Babylon #15; $108.40, Huntington #16; $108.56, Huntington #15; and $107.85, Huntington #14.

j/ Assessment ratios reported as 17 percent for Huntington and 20 percent for Babylon.

k/ Effective tax rates for the 6 towns range from $18.33 to $18.46 per $1,000 of assessed value.

l/ Estimated true value based on state equalization rates. Assessed value reported as $40,929,127.

m/ Estimated tax rate of $23.70 per $1,000 of true value based on state equalization.

n/ Tax rates per $1,000 of assessed values reported as follows: $32.46, Caledonia; $39.96, Wheatland; $47.22, Brighton; and $67.75, Chili. Assessment ratios for these towns are 48, 39, 33, and 23 percent, respectively.

o/ Applicable to 4 towns.

p/ Tax rates per $1,000 of assessed value are as follows: $39.00, Mohnton Boro; $40.00, Shillington Boro; $41.00, Cumru Township; and $43.00, Brecknock Township. The effective tax rates for the 4 towns are $13.65, $14.00, $14.35, and $15.05 respectively.

---

a/ For systems which did not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

b/ Comprises net cost of food services and student body activities, and miscellaneous items of current expenditure not otherwise specified.

c/ Adjusted by NEA Research Division to exclude expenditures for adult education and summer schools.

d/ Figures given are estimates.

e/ Includes $1,132,144 for cost of food services, $241,249 for veterans' high school, and $82,685 for Capitol Page School.

f/ Includes an estimated expenditure by Dade County Health Department of $390,952 for health services provided.

g/ County Health Department conducts dental inspection and care for eligible children in kindergarten through grade 7 and emergency dental care through grade 14; also audiometric, visual, and other physical examinations.

h/ Expenditures for health services are included with attendance services.

i/ Food services.

j/ Expenditures for health services are included with instruction.

k/ Includes $714,052 in services supplied by Baltimore City Health Department.

---

l/ Includes $3,443,503 paid by state of Maryland for teacher retirement and social security and $132,000 id by Montgomery County for fire insurance.

m/ Includes $530,546 expended by Montgomery County.

n/ In addition to health expenditures by the board of education, the city of St. Louis furnishes medical rogram for which costs are not available.

o/ Includes expenditure of $1,062,224 for data processing unit.

p/ Includes expenditures for summer schools.

q/ Represents expenditure for health services provided by the New York City Department of Health.

r/ Certain expenditure items reclassified by NEA Research Division for comparability in reporting.

s/ Includes $118,310 for cost of food services, $520,675 for student body activities, and $54,657 for efund of prior year expenditures.

t/ Estimated health services are provided by Memphis and Shelby County Health Department.

u/ Includes $927,293 for special programs (music, pre-athletic, etc.) and $110,013 for net cost of tudent body activities.

v/ Supplied by City Health Department.

w/ Expenditure per pupil in average daily membership.

x/ Mean of means of 24 systems.

---

a/ For systems which did not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

b/ Comprises net cost of food services and student body activities, and miscellaneous items of current expenditure not otherwise specified.

c/ Includes expenditures for summer schools.

d/ Includes grades K through 12 only; expenditures for junior colleges have been excluded.

e/ Estimated.

f/ Includes expenditure of $688,955 made by Health Department of City of San Francisco.

g/ Net cost of food services.

h/ Health services supplied by Pinellas County Board of Health.

i/ Health services supplied by Parish Health Unit.

j/ Includes contributions by the city of Minneapolis for teachers' retirement fund.

---

a/ For systems which did not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

b/ Comprises net cost of food services and student body activities, and miscellaneous items of current expenditure not otherwise specified.

c/ Health services supplied by County Health Department.

d/ Expenditures for athletics and other local money spent by various schools.

e/ Expenditures for instruction include attendance services.

f/ Includes expenditure of $88,487 for noon-duty supervisor and other classified salaries.

g/ Current expenditures include costs of summer school and adult education programs, etc.

h/ Includes community use of school plant, noon-duty aides, and National Youth Corps.

i/ Current expenditures include costs of adult education program.

j/ Includes remittance of $37,550 to adjoining county for participation in educational television.

k/ Includes $92,438 expended for revolving and stockroom accounts.

l/ Includes expenditure by City Health Department of $171,184.

---

m/ Expenditures for attendance services include cost of health services.

n/ Includes estimated cost of $85,000 in health services supplied by Public Health Service.

o/ Includes expenditure for data processing of $109,375.

p/ Includes $189,269 in net costs of food services and student body activities and $88,084 spent for printing and publishing.

q/ The Guilford County Health Department provides all health services, including school nurses, dentists, etc.; the expenditure of $9,558 represents state-allocated funds only.

r/ Includes $380,357 in net cost of food services and $141,165 in expenditures to other agencies.

s/ Transportation costs are paid by the state.

t/ Paid to Knox County for pupil transportation services.

u/ Current expenditures include cost of summer-school program.

v/ Expenditure per pupil in average daily membership.

w/ Mean of means of 71 systems.

---

a/ For systems which did not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment for other systems.

b/ Comprises net cost of food services and student body activities and miscellaneous items of current expenditures not otherwise specified.

c/ Expenditures for instruction adjusted by NEA Research Division to exclude costs of regular summer schools and adult education.

d/ Expenditures for instruction include cost of attendance services.

e/ Expenditures for health services include cost of attendance services.

f/ Current expenditure items include cost of junior college.

g/ Current expenditure items include $228,105 expended for adult education and $103,971 for summer schools.

h/ Estimated.

i/ Includes $59,000 expended by the Town of Greenwich for health services.

j/ Includes cost of public-school nurses on Town of Westport budget.

k/ Expenditure for attendance services paid from county funds.

l/ Represents cost of 3 attendance officers paid by Lake County.

m/ Includes expenditure of $34,500 by another agency supplying attendance services.

n/ Furnished by county commissioners; amount reported is estimated.

o/ Supplied by county office.

p/ Supplied by County Health Department.

---

q/ Includes $348,512 in services supplied by city departments.

r/ Includes $202,298 in expenditures by city departments.

s/ Expenditure reported made by city department.

t/ Excludes reserves of $606,042 for future budgets and $50,000 in reserve for severance pay.

u/ Expenditures for instruction adjusted by NEA Research Division to exclude cost of attendance and health services reported separately.

v/ For transportation services provided to resident pupils according to New York State law.

w/ Adjusted by NEA Research Division to include board of education expense for auditing, legal services, and other costs.

x/ Expenditure includes health services provided to 2 parochial schools.

y/ Estimated cost of transportation services allocable to public-school pupils.

z/ Includes $1,842 in health services provided by other districts.

aa/ Represents expenditures for transportation services provided to public- and parochial-school students.

ab/ Includes student body activities.

ac/ Includes expenditure of $22,485 for data processing unit.

ad/ Expenditures reported for administration, instruction, and operation and maintenance services include $50,714 expended for employees' retirement group life insurance, hospital insurance, and social security, resulting in total fixed charges of $67,724.

ae/ Expenditure per pupil in average daily membership.

Median of systems			722.61			514.01

---

a/ For systems which did not report average daily membership, calculations are based on average daily attendance in California systems and on October enrollment in other systems.

b/ Comprises net cost of food services and student body activities and miscellaneous items of current expenditures not otherwise specified.

c/ Includes an estimated cost of $3,000 as net deficit for student body activities.

d/ Expenditures for instruction include cost of attendance services.

e/ Data reported are estimated.

f/ Salary paid by county for attendance officer.

g/ Includes $32,735 for employee retirement and $28,535 for insurance paid by Town of Stoneham which are not included in school budget.

h/ Expended for learning abilities laboratory.

---

[a] Includes only amounts spent by the school system or by the city or county if the schools are fiscally dependent and data on such expenditures are available. Excludes amounts spent by nonschool governmental units which may have a legal obligation for capital outlay, interest, and debt retirement for educational purposes, except as noted.

[b] Owing to variations in accounting systems, expenditures for programs other than elementary and secondary day schools are not strictly comparable.

[c] On long-term debt only.

[d] Expenditures for interest and debt retirement made by Los Angeles County.

[e] Separate junior college district under same board of education.

[f] Includes expenditure of $215,604 for Manpower Development and Training Program and $33,111 for transfer of funds.

[g] Figures shown were reported as estimates.

[h] Expenditures included are as follows: Teachers College, $991,819; education of children in special institutions, $265,282; Americanization School, $161,561; Civil Defense, $18,701; and other, $2,104.

[i] Paid by state of Hawaii and various counties.

[j] Includes expenditures for technical schools, $1,365,534, and MDTA and ARA, $164,489.

[k] Expenditure for Chicago Teachers College.

[l] Includes expenditure for Head Start Program of $135,016.

[m] Paid by city of Baltimore.

[n] In addition, expenditures for capital outlay are made through the Baltimore County Capital Budget.

---

o/ Expenditures made by Montgomery County, Maryland, except for $518,366 for capital outlay made directly by the school system.

p/ For tuition paid to other school units.

q/ Paid by County Commissioners.

r/ Includes $2,610,792 for MDTA and $1,160,573 for federal antipoverty programs, such as Head Start.

s/ Reported as self-sustaining or operated from tuition payments.

t/ Includes the following: Teachers College, $518,797; NDEA, $92,248; Ford Foundation, $17,589; and MDTA, $970.

u/ Expenditures for summer schools included with instruction in current expenditures for elementary and secondary day schools.

v/ Expenditures for adult education included with expenditures for other community services.

w/ Includes expenditure for playgrounds of $161,795 and for community centers, $91,121.

x/ Includes $497,248 for scholarships and $118,806 for tuition for handicapped children in special schools.

y/ Educational television.

z/ Includes $3,502 in capital outlay expenditures from food service and athletic funds.

aa/ Expenditure for Head Start Program.

ab/ Paid by city of Milwaukee. Expenditure for interest included in debt retirement.

ac/ Includes expenditure for recreation and camping of $2,055,612, and $526,781 for other community services including adult education.

Number of systems	43	43	44	39	40

---

a/ Includes only amounts spent by the school system or by the city or county if the schools are fiscally dependent and data on such expenditures are available. Excludes amounts spent by nonschool governmental units which may have a legal obligation for capital outlay, interest, and debt retirement for educational purposes, except as noted.

b/ Owing to variations in accounting systems, expenditures for programs other than elementary and secondary day schools are not strictly comparable.

c/ On long-term debt only.

d/ Included with current expenditures for elementary and secondary day schools.

e/ Operated on a self-sustaining basis from tuition payments.

f/ Includes $317,058 paid to the state of California as annual repayment of State and Public School Building Apportionments.

g/ Paid by Los Angeles County.

h/ Includes amount of $865,893 expended by the city and county of San Francisco through school district bond.

i/ General obligation of city and county of San Francisco.

j/ For outgoing transfers and tuition to other districts.

k/ Excludes capital outlay of $30,740 for adult education and $20,160 for educational television reported under respective programs.

l/ See footnote k/ above.

m/ For educational television; see footnote k/ above.

n/ Includes expenditures of $371,783 for Neighborhood Youth Corps, $327,886 for MDTA, $92,025 for Vocational Education Act, $35,211 for National Institute of Mental Health grant, and $2,053 for Head Start Program.

o/ Includes $758,500 in payment of bonds and $78,279 in commission payments to Tax Assessor and Tax Collector.

p/ Estimated.

q/ Includes payments made by the state department of education which withholds these amounts from funds which would otherwise be sent to the county.

AND PROGRAMS OTHER THAN ELEMENTARY AND SECONDARY DAY

---

r/ For academic program only.

s/ Includes capital outlay expenditures.

t/ Expenditures made by the city of Boston; figures provided by the city auditor.

u/ Amounts reported represent expenditures in excess of tuition receipts.

v/ Includes $30,120 expended for Americanization classes.

w/ Includes expenditures as follows: Head Start Program, $41,048; MDTA, $37,007; NYC, $22,033; Nurse Training Program, $18,235; and ARA, $7,104.

x/ Includes $275,000 for down payment on capital improvements.

y/ Estimate for services supplied by City Recreation Department.

z/ Includes MDTA, $155,802 and Welfare Education Act, $107,102.

aa/ Includes NYC, $363,325; OEO Community Action Programs, $309,569; and Vocational Education Training, $15,340.

ab/ Includes tuition paid to other districts, $117,519; training mentally deficient, $74,793; and reimbursable non-pupil expenditures, $50,161.

ac/ Includes expenditure of $141,695 for MDTA.

ad/ Attendance services for private-school pupils included with current expenditures for elementary and secondary day schools.

ae/ Health and attendance services for private-school pupils included with current expenditures for elementary and secondary day schools.

af/ Includes refunds of prior year's expenditures, $326,929, and tuition payments to in-state districts, $167,594.

ag/ Paid by Metropolitan Government of Nashville and Davidson County.

ah/ Includes MDTA, $289,044; Economic Opportunity Act program, $105,573; Area Vocational School, $82,618; Nashville Education Improvement Project (Ford Foundation), $36,080; NDEA Title VIII, $18,257.

ai/ Manpower Development and Training Program.

aj/ Paid by city of Norfolk.

ak/ Includes MDTA and Area Vocational training program.

al/ Undistributed amounts for interest and debt retirement are generally included in debt retirement.

---

a/ Includes only amounts spent by the school system or by the city or county if the schools are fiscally dependent and data for such expenditures are available. Excludes amounts spent by nonschool governmental units which may have a legal obligation for capital outlay, interest, and debt retirement for educational purposes, except as noted.

b/ Owing to variations in accounting systems, expenditures for programs other than elementary and secondary day schools are not strictly comparable.

c/ On long-term debt only.

d/ Supported by tuition payments.

e/ The summer-school program is carried on by a private corporation whose board of directors is made up of school people. School facilities are rented from the school district.

f/ Includes $260,460 for maintenance and $72,381 for tuition.

g/ Paid by the Treasurer of Alameda County, California.

h/ Manpower Development and Training Program.

i/ Includes $3,370,723 expended from State Building Fund.

j/ Total expended from all funds.

k/ Paid by Los Angeles County Auditor, Controller's Office.

l/ Under jurisdiction of Pasadena City Junior College District.

m/ Includes Economic Opportunity Act program, $142,782; tuition paid for vocational students attending Delta Junior College, $115,000; NDEA, $26,585; culturally deprived, $25,423; also MDTA, $13,168; and other.

n/ Expenditures for other programs are included with current expenditures for elementary and secondary day schools.

o/ Expenditures for calendar year 1964.

p/ Paid by city of Hartford except for $53,024.

q/ Paid by the city of Hartford.

r/ Included with current expenditures for elementary and secondary day schools.

s/ Estimated.

t/ Includes $439,580 paid by State School Building Authority.

u/ Includes $20,286 for public museum.

v/ Includes $150,368 for Area Industrial Institute, $27,427 for Veterans Memorial School Construction loan, and $3,064 for summer educational activities.

---

w/ For MDTA and Head Start Programs.

x/ For operation of television station.

y/ Paid by city of Springfield except for $227,234 in capital outlay expenditures by school system.

z/ For transportation.

aa/ Financed wholly by Mott Foundation.

ab/ Includes $82,619 for community recreation.

ac/ Includes expenditure of $185,534 for MDTA, $243,442 under Public Law 815, $12,367 under Title VIII, and $14,514 for tuition payments for students attending school in other counties and states.

ad/ Paid by city of Jersey City, N. J.

ae/ Paid by city of Yonkers, N. Y.

af/ Includes $54,113 for MDTA, $23,329 for work-study program, and $7,937 for adult welfare education.

ag/ Paid by Forsyth County.

ah/ Paid by city of Providence except for $12,616 in capital outlay expenditures made by school system.

ai/ Includes $49,400 for school nurses and $20,272 for transportation.

aj/ Tuition payments to other districts.

ak/ Includes $498,335 paid by State Education Finance.

al/ From federal funds for vocational education.

am/ Includes payments by the city of Knoxville.

an/ Payments made by the Shelby County Quarterly Court except for $839,639 for capital outlay paid by the school system.

ao/ Includes community action program expenditure of $336,565 and Neighborhood Youth Corps, $41,315.

ap/ Includes $411 for fiscal service charges for handling debt retirement.

aq/ Includes expenditure of $2,366,702 by city of Newport News.

ar/ Paid by the city of Richmond.

as/ Expenditures for adult education included in community college program.

at/ Includes amount of $160,911 paid directly to contractors by state of Washington construction matching funds.

au/ Paid by the city of Madison except for $435,854 for capital outlay paid by the school system.

av/ Includes $283,995 for student recreation and other services.

aw/ Undistributed amounts for interest and debt retirement are generally included in debt retirement.

---

p/ Except for $133,642 in capital outlay expenditures made directly by school system, all payments were made by the city of Norwalk.

q/ Paid by town of Westport.

r/ Paid by town of Lexington.

s/ Except for $108,414 in capital outlay expenditures made by the school system, all payments were made by the city of Newton.

t/ For manpower training.

u/ Paid by the city of East Orange.

v/ For outside tuition and transportation.

w/ Patron charges.

x/ Includes tuition payments to other districts.

y/ The school district is the fiscal agent for the public library and raises the required tax levy of the Board of Library Trustees.

z/ Includes $88,701 for transportation and $11,198 for health services.

aa/ Includes $60,000 for transportation and $15,061 for health services.

ab/ Debt retirement for public library included in school system expenditures.

ac/ Includes $56,295 for transportation and $10,140 for health services.

ad/ Excludes expenditures from Building Fund.

ae/ Includes expenditures made by Peninsula Public Library--$10,150 for interest and $10,000 for debt retirement.

af/ Expenditures for summer schools and adult education are combined.

ag/ Estimated.

ah/ Transportation services to parochial-school students reported under current expenditures for public day schools.

ai/ Undistributed amounts for interest and debt retirement are generally included in debt retirement.

---

a/ Includes only amounts spent by the school system or by the city or county if the schools are fiscally dependent and data on such expenditures are available. Excludes amounts spent by nonschool governmental units which may have a legal obligation for capital outlay, interest, and debt retirement for educational purposes, except as noted.

b/ Owing to variations in accounting systems, expenditures for programs other than elementary and secondary day schools are not strictly comparable.

c/ On long-term debt only.

d/ Expended by township governmental unit.

e/ Estimated.

f/ For tuition transfers.

g/ Includes $11,297 for vocational school tuition and transportation and $1,035 for tuition to other districts for handicapped children.

h/ For tuition and transportation to other districts.

i/ Reported as self-sustaining separate entity.

j/ Summer-school tuition to other districts.

k/ Included with reporting on current expenditures for public elementary and secondary day schools.

[a] The Los Angeles County Board of Supervisors sets the tax rate for the school system.

[b] The County Commission is the tax-levying authority, but the school district does have a special ad valorem tax to supplement current expense operations.

[c] Four of the 5 items voted on were approved.

a/ Disapproved December 15, 1964, but approved February 25, 1965.

b/ Elementary construction disapproved 1964-65; approved in 1965-66.

QUESTIONNAIRE

NATIONAL EDUCATION ASSOCIATION OF THE UNITED STATES
1201 Sixteenth Street, Northwest, Washington, D. C. 20036

Research Division

November 1965

PUPILS, TEACHERS, AND FINANCES OF LOCAL SCHOOL SYSTEMS, 1964-65

Name of school system ____________________ State __________

Name of person completing this inquiry ____________________

Position ____________________

PLEASE FILL IN THE FOLLOWING BLANKS. USE ESTIMATES WHERE NECESSARY, BUT PLACE AN "E" BEFORE ESTIMATED FIGURES.

1. Number of pupils in elementary and secondary day schools, kindergarten through grade 12. Include kindergarten and other half-day sessions as full-time:

__________ Enrollment, October 1964

__________ Average daily attendance, 1964-65

__________ Average daily membership, 1964-65

2. Number of pupils enrolled in the following programs (respond only if the program is operated by your school system):

__________ Regular summer school enrollment (Grades K-12) 1965

__________ Project Head Start summer school enrollment, 1965

__________ Enrollment in adult education classes, October 1964 (Itemize by program, if possible): ____________________

____

__________ Enrollment in junior colleges, October 1964

3. Number of persons who gave half time or more to classroom teaching in elementary and secondary day schools, kindergarten through grade 12, for the school year 1964-65. Exclude principals, supervisors, counselors, librarians, etc., unless they taught at least half time.

__________ Total __________ Men __________ Women

4. Distribute the total elementary- and secondary-school classroom teachers in item 3 above by highest level of college preparation completed:

__________% No bachelor's degree

__________% Bachelor's degree

__________% Master's degree

__________% Master's degree plus 30 hours

__________% Doctor's degree

100.0 % Total

Q 65-19

5. Indicate below the turnover in classroom teachers from July 1, 1964, to June 30, 1965 (exclude leaves of absence):

Total	Men	Women	
________	________	________	Number of resignations
________	________	________	Number of other terminations including deaths, retirements, dismissals, and promotions to school positions other than classroom teaching
________	________	________	Total terminations

6. Indicate total number of days that elementary and secondary day schools were in session in the school year 1964-65. Exclude holidays, vacations, and days that teachers worked but pupils did not attend school.

__________ Elementary __________ Junior high __________ Senior high

7. Indicate below the total revenue receipts of the school system for 1964-65 by governmental level contributing the funds. Include tax and nontax revenue receipts, patron charges, earnings, state and federal aids; that is, all monies available for expenditure by the system except nonrevenue receipts, such as borrowed funds, proceeds from bond sales, etc.

$ ____________ From local sources, including intermediate (county)

$ ____________ From state sources

$ ____________ From federal sources

$ ____________ Total revenue receipts

8. $ ____________ Total assessed value of taxable property within the school system, 1964

9. $ ____________ Tax rate per $1,000 of assessed value. (Please check a, b, or c below before answering):

(a) ☐ If your system is fiscally independent, enter in item 9 the total of all tax rates on property levied by the school system for all school purposes in 1964, including current operation, capital outlay, and debt service.

(b) ☐ If your system is independent except for capital outlay and/or debt service, enter the tax rate levied by nonschool government for school capital outlay and/or for school debt service here: $ ________ per $1,000 of assessed value. Enter in item 9 above, the tax rate on property levied by the school system for all other school purposes.

(c) ☐ If your system is fiscally dependent and the tax rate for schools is included in the rate of the city or county government, enter above in item 9 an estimated rate representing the school's share of the total tax rate.

10. __________% Prevailing ratio of assessed value to market value of real property. Please estimate if necessary.

NOTE: Please read Parts One, Two, and Three of question 11 below before filling in the blanks.

11. Enter the amounts spent by your school system for the accounts listed for the last fiscal year, 1964-65, if possible. Please indicate here the ending date of the fiscal year for which you are supplying data: ____________

PART ONE--CURRENT EXPENDITURES FOR PUBLIC ELEMENTARY AND SECONDARY DAY SCHOOLS ONLY

(a) $ ____________ Administration or general control. Include salaries and other expenses of system-wide administration.

(b) $ ____________ Instruction. Include salaries of classroom teachers and other instructional staff, textbooks, teaching supplies, school library books chargeable to current expense, and other current expenses of instruction.

(c) $ ____________ Operation and maintenance of plant. Include salaries and other costs of cleaning, repair, upkeep, and replacement of school property.

(d) $ ____________ Fixed charges. Include employees' retirement, insurance, rentals, interest on short-term loans, etc.

*(e) $ ____________ Attendance services for public-school pupils.

*(f) $ ____________ Health services for public-school pupils.

*(g) $ ____________ Transportation services for public-school pupils. Exclude capital outlay for buses.

*If items e, f, and/or g are supplied by an agency other than your school system, please explain here. Give amounts of expenditure if possible and specify whether they are in addition to figures reported in items e, f, and g: ____________

____

____

(h) $ ____________ Food services (nonreimbursable expenditures from school system general funds or net cost to school district). Please enter gross expenditures of food service program here: $____________

(i) $ ____________ Student-body activities (net cost to school district)

(j) $ ____________ Other expenditures for day schools (please explain large amounts):

____

MORE

11. (Continued)

PART TWO--EXPENDITURES FOR CAPITAL OUTLAY AND DEBT SERVICE FROM ALL FUNDS

	BY SCHOOL SYSTEM	BY NONSCHOOL AGENCY*
(k) Capital outlay expenditures	$ ________	$ ________
(l) Interest paid on long-term debt	$ ________	$ ________
(m) Expenditure for debt retirement	$ ________	$ ________

*Please enter below the name of the county, municipality, or other nonschool agency making expenditures for the items reported above. Also, indicate if any expenditures for school capital outlay purposes were made in addition to the amounts entered above.

PART THREE--EXPENDITURES OF SCHOOL SYSTEM FOR SCHOOL PROGRAMS OTHER THAN ELEMENTARY AND SECONDARY DAY SCHOOLS (Include expenditures financed partly or totally through patron charges, if possible)

(n) ________ Regular summer schools

(o) ________ Adult education

(p) ________ Junior colleges

(q) ________ Public libraries

(r) ________ Services to private-school pupils

(s) ________ Other community services (including recreation, child care, civic and welfare activities)

(t) ________ Other expenditures. Please itemize large expenditures and give amounts expended for federally financed programs not included in other items of this report.

12. Did you have a school bond referendum in your system during the school year 1964-65?

☐ Yes ☐ No ☐ Not applicable

If you answered YES, above, what was the result? ☐ Approved ☐ Disapproved

13. Did you have a referendum during the school year 1964-65 involving an increase in the school tax rate?

☐ Yes ☐ No ☐ Not applicable

If you answered YES above, what was the result? ☐ Approved ☐ Disapproved
